Playfair Display	400, 700, 700i, 900, 900i	Editorial/body display and long-form styled copy.
------------------	---------------------------	---

Font files found:

Cinzel-400.ttf, Cinzel-700.ttf, Cinzel-900.ttf, CinzelDecorative-400.ttf, CinzelDecorative-700.ttf, CinzelDecorative-900.ttf, Montserrat-600.ttf, Montserrat-700.ttf, PlayfairDisplay-400.ttf, PlayfairDisplay-700.ttf, PlayfairDisplay-700i.ttf, PlayfairDisplay-900.ttf, PlayfairDisplay-900i.ttf

Heading/Subheading/Body/CTA typography examples are observed from templates; exact editable text is converted to vector paths in final SVG outputs.

7. IMAGERY & VISUAL STYLE

- Observed from existing creative materials: dark, high-contrast backgrounds with gold highlights.
- Frequent premium gradient usage (gold gradient + deep black/charcoal base).
- Event and celebration motifs are used in festival creatives (Ganpati/Navratri variants).
- Composition generally preserves clear lower-third readability zones for headlines/CTA.
- Photo overlays are designed as transparent frames for user-provided event photography.
- Texture/pattern style is subtle and ornamental rather than heavy.

Overlay example for photo insertion | 14-social-media-templates/feed-square/03-photo-post-overlay.png

8. DESIGN LANGUAGE

- Layout patterns: strong header/logo zones, center-focused message blocks, and consistent footer/contact strips.
- Logo placement: typically top or footer lockups with high contrast.
- Text hierarchy: short headline + supporting line + CTA/contact treatment.
- Spacing/margins: structured and modular (social templates provide fixed-ratio systems).

- Format system: feed-square (1:1), feed-portrait (4:5), story (9:16), plus cover/banner formats.
- Observed recurring creative types: event announcement, testimonial, booking CTA, service overview, festive greeting, gear spotlight.

13. AI IMAGE GENERATION REFERENCE

Brand Identity: Use MIHIR identity exactly as supplied. Keep tagline exactly: SOUND & LIGHT | EVENT | PRODUCTION.

Visual Direction: Premium, dark-base layouts with gold accents and high contrast. Use clean structured compositions observed in provided templates.

Color Direction: Prioritize official palette: Gold #D4AF37, Black #000000, Charcoal #1A1A1A, White #F5F5F5, with approved support colors from colours.json.

Typography Direction: Use Montserrat for labels/CTA, Cinzel/Cinzel Decorative for headings, Playfair Display for editorial body where needed.

Logo Rules: Do NOT redraw the logo with image models. Use provided logo files as overlay/reference assets. Preserve proportions and clear space.

Composition Direction: Follow known formats (1:1, 4:5, 9:16, banner) with clear hierarchy: headline, support line, CTA/contact.

Photography Direction: Use event-focused imagery with dramatic lighting and readable foreground text zones.

Background Direction: Prefer dark or neutral backgrounds that preserve gold/white logo contrast; use inverse/monochrome variants when needed.

CTA Direction: Booking and event CTA should remain visually prominent but minimal, with strong contrast and clean spacing.

Things to Avoid: Do not distort/recolor logo, do not use unapproved palettes, avoid low-contrast text, avoid unrelated imagery, avoid clutter/excess effects.

14. OCCASION / CAMPAIGN CREATIVE GUIDANCE

- What remains fixed: logo form, tagline text, core palette, and brand typography direction.
- What can adapt: background motifs, occasion iconography, headline message, campaign-specific offer text.
- Seasonal adaptation: integrate festival elements like those seen in Ganpati/Navratri examples while preserving logo and contrast rules.
- Promotional messaging: keep concise, avoid visual overcrowding, maintain CTA legibility.
- Campaign names/offers should be owner-verified before publishing.

15. READY-TO-USE AI CONTEXT

MASTER AI BRAND CONTEXT: Brand: MIHIR. Category: Sound & Light / Event Production. Tagline: SOUND & LIGHT | EVENT | PRODUCTION. Visual identity is premium gold-on-dark with clean structured layouts. Use official colors: #D4AF37, #000000, #1A1A1A, #F5F5F5, plus approved support colors (#F6E27A, #8E6A14, #0B1A3A, #3A3A3A). Typography direction: headings in Cinzel/Cinzel Decorative, labels in Montserrat, editorial text in Playfair Display. Always use original provided logo files as overlays; do not redraw logos or retype the wordmark/tagline as alternate branding. Keep high contrast and readable text hierarchy (headline, support, CTA). Existing creative types include social posts, stories, event announcements, booking CTA, testimonials, festival greetings, print collateral. Verified contact in assets: WhatsApp <https://wa.me/917000051042> (requires business confirmation). Avoid unapproved colors, distorted logos, cluttered compositions, unrelated imagery, and low-quality outputs.

16. AI CREATIVE PROMPT TEMPLATE

Create a [TYPE OF CREATIVE] for [OCCASION/CAMPAIGN] for MIHIR. Objective: [OBJECTIVE]. Audience: [TARGET AUDIENCE]. Main message: [MAIN MESSAGE]. Offer/Product/Service: [DETAILS]. CTA: [CTA TEXT]. Format: [PLATFORM/FORMAT]. Dimensions/Aspect Ratio: [SIZE]. Language: [LANGUAGE]. Required contact details: [CONTACT]. Required logo asset: [EXACT FILE PATH]. Required imagery/background direction: [IMAGE DIRECTION]. Additional instructions: Follow the provided MASTER AI BRAND CONTEXT and this Master Brand & Creative Guidelines document. Do not introduce unrelated branding, unapproved colors, or altered logo forms.

17. FILES THAT REQUIRE ATTENTION

- Official legal business name, full address, email, and website are not specified in provided assets.
- Direct social profile URLs are not specified in provided assets.
- Rate-card package pricing exists visually, but machine-readable values are not extractable from vectorized text exports; requires verification.
- No official Pantone values found.
- No explicit formal brand-guideline PDF was found; guidance is distributed across README, token files, and creative exports.
- Some creative text content is outlined in SVG paths (not editable/searchable text) — editable source verification may be needed.
- No exact binary duplicates detected across scanned files.
